

Dr Suzanne McCarthy is a Senior Lecturer in the School of Pharmacy UCC and interim Director of the MSc in Clinical Pharmacy, UCC. In her role, Suzanne teaches undergraduate and postgraduate pharmacy students across a variety of clinical areas and research topics. She has supervised many research students over the years from undergraduate level to PhD. Suzanne has a keen interest in researching on the topics of medication safety, human factors, and mental health, using both quantitative and qualitative methods. She has published over 100 journal articles and published abstracts along with several book chapters and reports. She has presented her research at many national and international conferences.
